Our Focus on safety of vehicle and Global Reach

At Fine Track, we prioritize high quality, suitable materials, and global reach. Our GPS tracking devices are meet diverse national standards, ensuring you receive a reliable and durable solution wherever you are.

our software, including mobile applications for GPS trackers, is proudly made in-house by our team.

Designed with a focus on data security, privacy, and seamless functionality, we ensure complete control over your information and provide swift resolutions to any issues, delivering unmatched reliability and peace of mind.

we specialize in innovative solutions for mobility safety and visibility. Combining cutting-edge hardware, intelligent software exceptional service, we empower individuals and businesses to monitor, and protect what matters most.

We design ,Integrate and deliver next-gen technology solutions

Car IQ

Our Story:

Building Trust Through Experience

A Decade of Expertise, A Lifetime of Innovation

The Vision Born from Expertise

Fine Track Technology was founded by an industry veteran with over a decade of experience identifying critical gaps in the GPS and vehicle security market. Our journey began with a simple but powerful realization: customers need more than affordable trackers; they need guaranteed security, data integrity, and solutions that respect their vehicle's integrity.

We created Fine Track to deliver on that promise, focusing on advanced features and meticulous installation standards that the industry often overlooks.

Commitment to Reliability and Growth

Since our inception, we have rapidly established ourselves as India's go-to solution for vehicle tracking and fleet management. Our commitment to providing reliable, easy-to-use technology is reflected in our numbers:

Fine Track-001

Your Vehicle's Smart, Secure Companion

Premium GPS Vehicle Tracking System

Fine Track-001 is a state-of-the-art solution designed for car owners and fleet managers who demand unmatched precision, reliability, and complete vehicle security. With built-in 4G connectivity and advanced telematics, this device transforms your vehicle into a smart, connected asset that you can monitor from anywhere in India.

Key Features

Advanced technology for precision tracking and complete vehicle security

• Live Location Updates

Know your vehicle's position instantly with accurate, moment-by-moment GPS tracking.

• Commercial and Personal Use

Serves as the standard solution for precise location tracking in both personal car security and commercial fleet management.

• Remote Engine Immobilizer

Remotely shut down the engine to prevent theft.

• Geo-Fence Alerts

Set secure boundaries and receive instant alerts if the vehicle crosses them.

• Anti-Theft Protection

Robust anti-theft features for peace of mind at all times.

Fine Track-003

Your Vehicle's Smart, Secure Companion

Premium GPS Vehicle Tracking System

Fine Track-003 delivers unmatched precision, reliability, and security with built-in 4G connectivity and advanced telematics—perfect for car owners and fleet managers who want a future-ready solution.

Key Features

Advanced technology for precision tracking and complete vehicle security

• Live Location Updates

Know your vehicle's position instantly with accurate, moment-by-moment GPS tracking.

• Commercial and Personal Use

Serves as the standard solution for precise location tracking in both personal car security and commercial fleet management.

• Remote Engine Immobilizer

Remotely shut down the engine to prevent theft.

• Geo-Fence Alerts

Set secure boundaries and receive instant alerts if the vehicle crosses them.

• Anti-Theft Protection

Robust anti-theft features for peace of mind at all times.

Fine Track-4G

Premium 4G Tracker Device

4G GPS Tracker Device is a compact and reliable solution for real-time location tracking. Powered by 4G LTE connectivity, it ensures fast data transmission, wide network coverage, and accurate tracking.

With GPS + LBS positioning, live tracking via mobile app or web, and smart features like geo-fencing, SOS alerts, speed alerts, and long battery life, it offers enhanced safety and complete control.

Key Features

4G LTE Connectivity – Faster data & wider network coverage

Remote Ignition On/Off
Using the app

Stay in the zone with
Geofence Updates

Stay Ahead with
Real-Time Updates

Secure Every spot with
Parking Mode

Take Control Easily With
Immobilizer

Lightning Fast
GPS Tracking

Fine Track Jasoos

See, Hear, and Track – Total Control at Your Fingertips

Live Surveillance & GPS Tracking System

Don't just track your car—Hear and See what's happening inside.

Next generation vehicle security with eyes and ears inside your vehicle. Monitor driver behavior, ensure child safety, and prevent theft with audio-visual evidence and real-time control—all without cutting a single wire.

Key Features

Advanced technology that gives you complete control and visibility

• Discrete Listening (One-Way Calling)

Concealed microphone lets you listen to cabin conversations silently—perfect for monitoring misuse.

• Two-Way Intercom

Speak directly to passengers through the device when you need to intervene.

• Total Immobilization

With a single click, immobilize the engine—once active, the car cannot be started.

• Parking Mode

Get instant alerts if the car moves or detects vibrations while parked.

• Instant Updates

Location updates every 2-3 seconds so you never miss a move.

• Live Alerts

Ignition ON/OFF, overspeeding, geofence, power cuts, towing alerts—all in real time.

Fine Track OBD

Plug, Track, Drive. Zero Hassle GPS

Plug-and-Play GPS Tracking

Meet the Fine Track OBD, the perfect GPS tracking solution for car owners and businesses who demand professional-grade monitoring without permanent installation. Plug into the OBD-II port and start tracking instantly.

Key Features

The Ultimate Plug-and-Play Freedom

Instant Diagnostics

Instantly read and understand why your Check Engine light is on. Quickly diagnose issues and avoid costly repairs.

Optimize Fuel Usage

Monitor fuel usage live to achieve optimal driving habits and save on fuel costs.

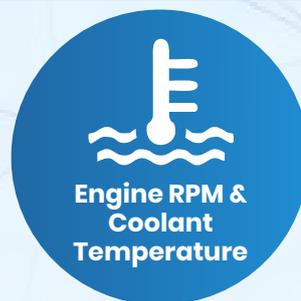

Prevent Breakdowns

Track battery status and voltage to prevent unexpected breakdowns and ensure optimal performance.

Monitor Critical Metrics

Continuously monitor critical engine metrics to detect potential issues like overheating before they become serious.

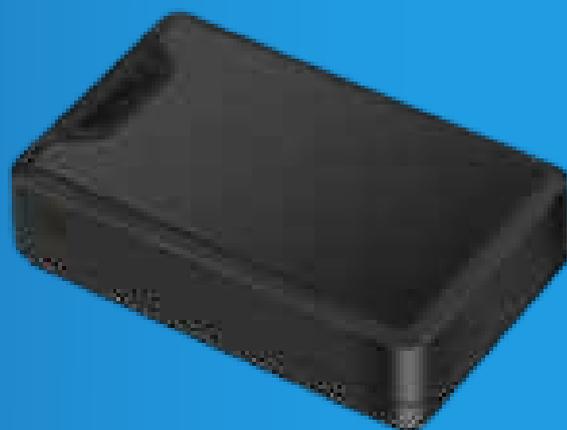

Fine Track (Magnet)

Discreet, Powerful, and Ready-to-Go Tracking

Wireless Magnetic GPS Tracker

The Fine Track (Magnet) is the ultimate wireless, battery-powered GPS tracking solution. Snap it onto any metal surface for secure, discreet monitoring of assets, vehicles, and temporary tracking needs.

Key Features

The Ultimate Plug-and-Play Freedom
Wireless tracking solution with powerful magnetic mounting

Ready Out of the Box

Requires no wiring or professional installation. Ready to use right away.

Secure Attachment

Neodymium magnetic base for secure, immediate attachment to any metal surface.

Durable & Discreet

IP66 water-resistant casing with stealth design. Ultra-compact and lightweight.

Long-Lasting Power

10,000 mAh battery for up to 30 days standby and 15 days active tracking.

GPS Car Charger

The Ultimate Stealth GPS Tracker

Stealth GPS Tracker + Fast Charger

A discreet GPS tracking solution that doubles as a premium fast charger. Plug it into your vehicle's cigarette lighter socket for instant, secret monitoring—no installation required.

2 IN 1

 **CAR CHARGER**

 **GPS TRACKING**

Key Features

The Ultimate Plug-and-Play Freedom

100% Discreet Design

Looks like a premium car charger with the GPS tracker fully integrated for total discretion.

Dual USB Fast Charging

A fully operational 3.4A dual USB car charger with fast charge support (QC 3.0 compatible).

Instant Setup

Just plug into the 12V socket—no installation, no wiring, no external battery required.
